360° PASSENGER PROTECTION.

The occupied cabin is enclosed by an integrated ballistic cell—combining opaque armor, multi-layer ballistic glass and continuous overlap protection.

AVAILABLE UP TO CEN B7

OPAQUE ARMOR

Doors, pillars, roof, floor, firewall and rear bulkhead.

TRANSPARENT ARMOR

All cabin glazing uses multi-layer ballistic glass.

OVERLAP SYSTEM

Reinforced joints protect door seams and glass borders.

CEN B7, CLEARLY EXPLAINED.

“B7” is commonly used as shorthand for a high ballistic protection class designed around specified armor-piercing rifle threats under controlled test conditions.

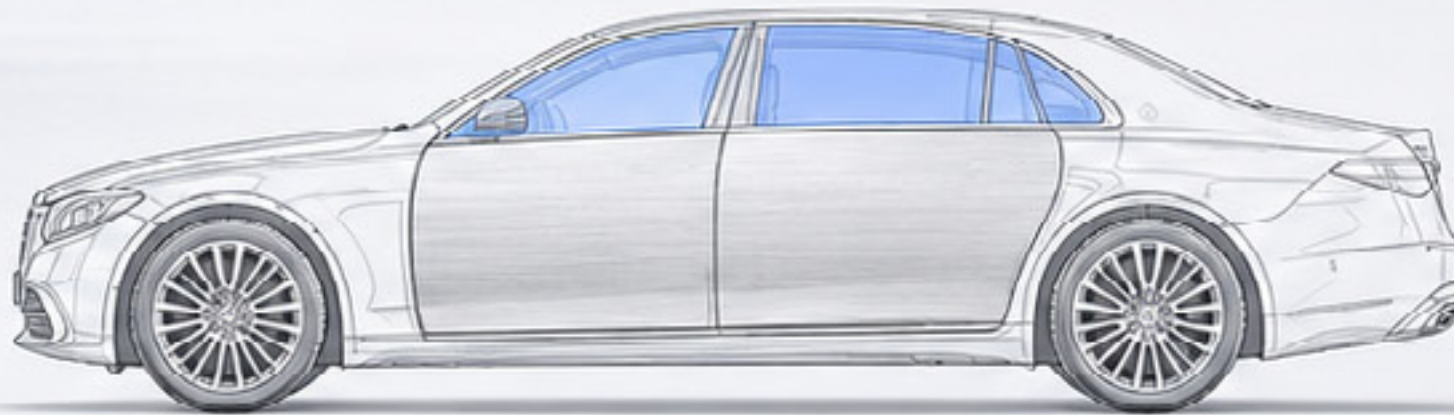

BR7 / TRANSPARENT ARMOR

EN 1063 classification for ballistic glazing.

FB7 / OPAQUE ARMOR

EN 1522 / 1523 classification for opaque armor assemblies.

TRANSPARENT ARMOR
OPAQUE ARMOR

THREAT-SPECIFIC

Protection is defined by a stated test method and ammunition.

INTEGRATION MATTERS

Glass, armor, overlaps and installation must work as one system.

MILITARY-GRADE RUN-FLAT SYSTEM.

A high-strength internal support insert helps preserve controlled mobility after tire pressure is lost.

INTERNAL SUPPORT RING

Carries vehicle load when the tire can no longer.

CONTROLLED MOBILITY

Designed to support continued movement away from danger.

VEHICLE-SPECIFIC SETUP

Matched to wheel size, axle load and final armored weight.

Operational distance and speed depend on the selected system and conditions.

FUEL TANK PROTECTION.

A reinforced protective structure helps reduce fuel-system vulnerability while preserving discreet vehicle integration.

SHIELDED TANK AREA

Additional protection surrounds the fuel-tank zone.

INTEGRATED PACKAGING

Engineered around the vehicle's original architecture.

CONFIGURATION-SPECIFIC

Materials and coverage are matched to the final protection package.

ABOUT BM VEHICLES

BUILT AROUND CONFIDENCE.

We create discreetly armored luxury vehicles
for clients who expect protection, refinement
and personal attention in equal measure.

OUR APPROACH

[EXPLORE VEHICLES](#)

DISCRETION
Protection without presence.

ENGINEERING
Advanced solutions, expertly delivered.

INDIVIDUAL SERVICE
Personal attention at every step.

OUR FACILITY

ENGINEERED UNDER ONE ROOF.

A dedicated production environment
supporting vehicle preparation, armor
integration, bespoke finishing and
final inspection.

01 / OUR APPROACH

FROM REQUIREMENT TO HANDOVER.

Every commission begins with understanding how you travel, what you value and the level of protection you require.

- 01

CONSULT —
Define the vehicle, intended use and priorities.
- 02

SPECIFY —
Select protection, systems, add-ons and interior details.
- 03

ENGINEER —
Integrate, finish and inspect the complete vehicle.
- 04

DELIVER —
Coordinate a discreet handover and ongoing support.
